**Excisions:** Not Applicable

**Reasons for excisions:**

Not Applicable

**Summary of reasons  
for classification:**

The publication entitled *2011.jpg* is classified as:  
Objectionable.

The publication is objectionable because it promotes and supports the use of urine in association with sexual conduct.

The publication is a computer image file. The image is in colour and depicts a man and woman using urine in a sexual manner. The tight focus upon the activity and sexualised body parts indicates that the publication is designed to be sexually arousing. The publication clearly affirms this behaviour as being an enjoyable and acceptable sexual activity.

The Classification Office has considered the effects of the New Zealand Bill of Rights Act 1990 on the application of the classification criteria. The classification of this publication interferes with the freedom of expression, but this is an outcome that is consistent with Parliament's intention that publications falling under s3(2) of the Films, Videos, and Publications Classification Act 1993 are deemed to be objectionable.
